ESPACIO RIESCO®

Welcome to Motortec Chile

It is the leading commercial and technological platform for the components, spare parts, accessories, equipment, and services sector for the automotive industry in Chile, aimed at Latin American professional visitors.

Motortec Chile, organized by IFEMA MADRID and ESPACIO RIESCO, will celebrate its fourth edition on **June 26, 27, and 28, 2025**, in **Santiago, Chile**.

Motortec Chile is the most representative sectorial meeting point for aftersales and aftermarket professionals, providing a space for knowledge exchange and business meetings. It also aims to promote future topics that challenge the spare parts and mobility sector in the city.

The exhibition, which brings together the international offerings with their brands, fostering their innovative and technologically advanced character, invites Latin American players to be present at this major event.

✓ Third Technicals Motortec Chile Olympics

An event that brings together the academic world, future automotive mechanics, and exhibiting companies. This edition saw the participation of DUOC UC, AIEP, INACAP, and 6 technical schools, where students showcased their skills and talents related to the Automotive Technician career. This time, the female category was added to the competition.

✓ Motortec Chile Business Roundtable and Meeting

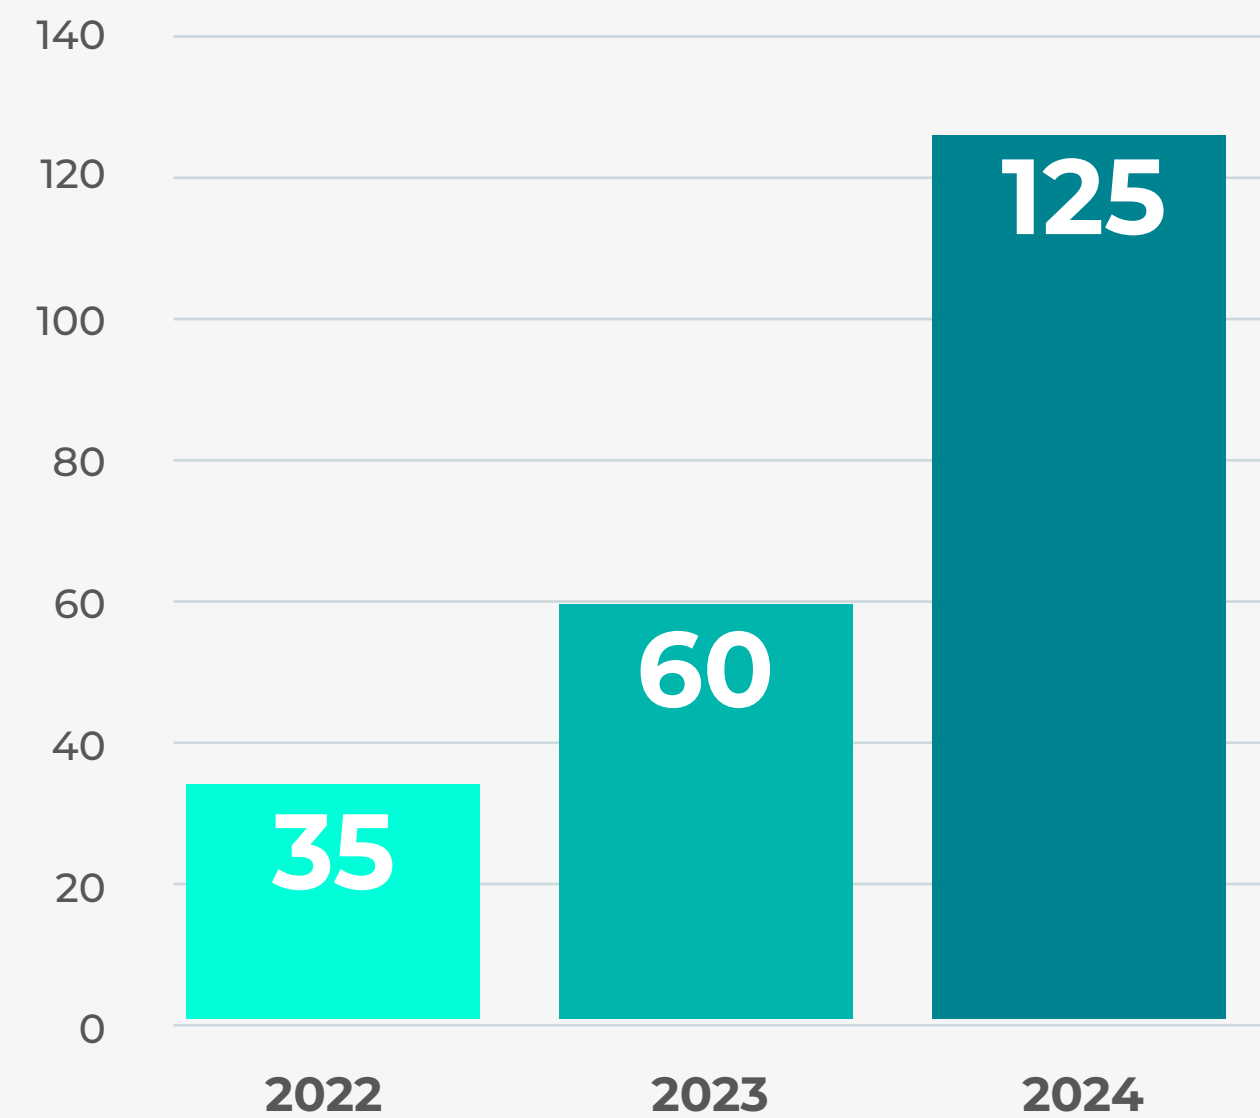

An activity that concluded with 261 meetings between national and international participants, both from the region and other parts of the world. Business projections amounted to USD 734,000.

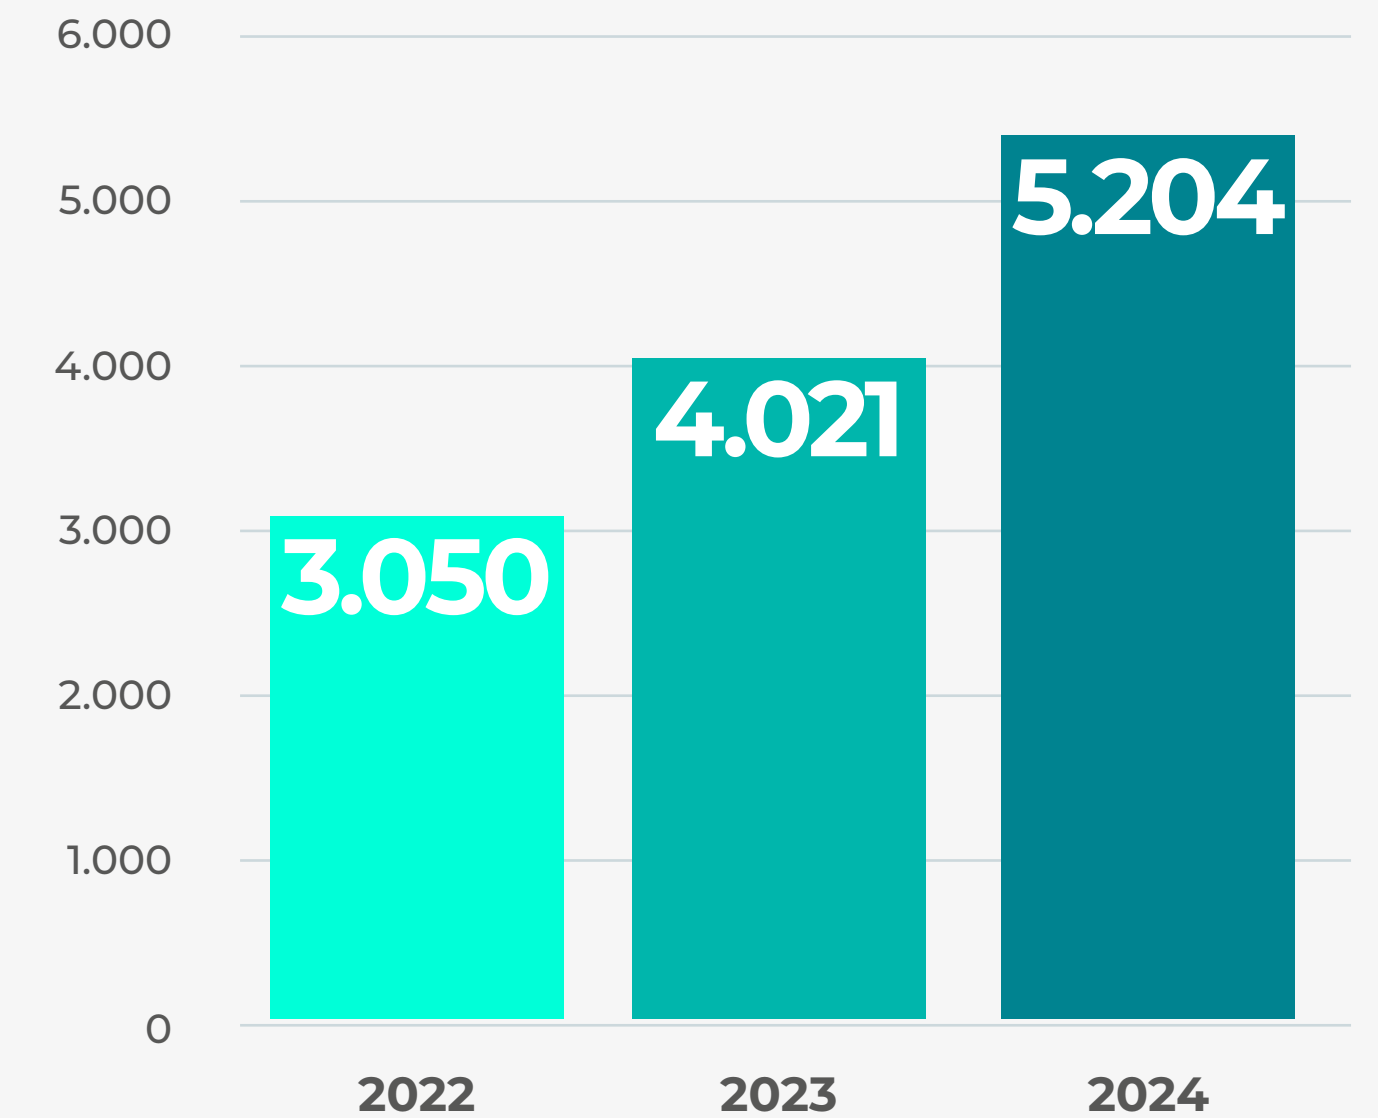

Motortec Chile evolution in its three editions

Over the past three years, we have seen that the evolution of Motortec Chile has experienced significant growth, both in exhibitors and visitors, which has allowed the fair to establish itself as an important event for the sector.

EXHIBITORS NUMBERS

ATTENDEES NUMBERS

What will Motortec Chile 2025 bring?

The aftermarket market refers to all the products, spare parts, accessories, and services offered for vehicles after their initial purchase. This market includes a wide variety of components and services that are not part of the original equipment of the vehicle but are designed to be compatible with or enhance the performance, aesthetics, or functionality of the car. It also allows owners of passenger and cargo transport vehicles to customize, repair, and improve the performance of their units.

The aftermarket is linked to innovation, as it is often at the forefront in terms of new technologies or features that may not be available in the original versions of vehicles.

The aftermarket is a very dynamic sector that offers products and services to both maintain and customize or enhance a vehicle, providing drivers with more options and flexibility.

PERFORMANCE

Performance refers to the overall performance of a vehicle in key aspects such as speed, acceleration, handling, braking, and engine power. Performance measures how well a vehicle performs its function in terms of driving dynamics, power, and safety.

As in the previous edition, Motortec Chile 2025 will include a significant space for a Performance experience, with an area for meetings between companies, brands, products, and high-end and sports vehicle models.

¿Qué traerá Motortec Chile 2025?

Brands looking to position themselves as a sporty and performance-oriented alternative will have an appropriate space at Motortec Chile to connect and create a great experience for visitors.

This area will also include companies focused on **detailing and wrapping** for vehicle enhancement, just like in 2024, where live demonstrations of innovative products were observed.

OFF ROAD 4 X 4 - OUTDOOR

At Motortec Chile 2025, we will provide a space for all the spare parts and accessories needed for **off-road vehicles**, which are put to the test in extreme conditions.

This area will also include equipment, accessories, and other items for **outdoor vehicles**, also known as adventure or recreational vehicles, which are designed to tackle difficult terrains and provide a driving experience in natural environments.

At Motortec Chile 2025, there will be opportunities to bring together companies related to this area, where vehicles require special care and treatment for optimal performance.

Why Motortec Chile at **Espacio Riesco?**

Espacio Riesco is the most important event, convention, and exhibition center in the country, internationally recognized.

It is located next to one of the fastest-growing business hubs in the city. With over 160,000 square meters of exhibition space, it stands out for its infrastructure, both covered and open-air, as well as its multipurpose spaces, making it ideal for this type of event.

The quality of its services and the excellence of its staff make it the ideal location for companies, institutions, and individuals when planning national and international events.

Who Are Our Exhibitors?

Motortec Chile 2025 is establishing itself as the leading international event for innovation in the automotive industry. This is the space where leading suppliers showcase the latest advanced technologies, high - performance functional solutions, and aesthetic improvements that are setting trends in the market.

It is a unique opportunity to connect with a diverse audience composed of professionals, distributors, and users of various types of vehicles, all seeking solutions that meet the specific needs of each segment.

Exhibiting at Motortec Chile 2025 will allow you to position your brand in a high-impact environment, highlighting your products and advancements to a specialized audience with the potential to generate business opportunities.

Take advantage of this platform to strengthen your network, establish strategic relationships, and ensure the growth of your business with direct benefits for exhibitors, such as brand positioning.
